OBJECTIVE

Enthusiastic and creative with a love for creating scalable and effective solutions. I'm eager to use my knowledge of related technologies to advance innovative initiatives and provide significant results in a fast-paced team setting.

EDUCATION

B.Tech(Computer Science and Engineering) 2022-2026
Kalinga Institute of Industrial Technology Bhubaneswar, Odisha

High School(Science with Mathematics) 2019 - 2021
Surendranath Centenary School Ranchi, Jharkhand

PROJECTS

E-Commerce Website:

- Developed a fully responsive e-commerce website using HTML, CSS, and JavaScript, ensuring optimal performance across all mobile devices.
- Added user-friendly navigation and cross-device interoperability to improve the online purchasing experience on PCs and mobile devices.
- A dynamic UI and interactive elements that are engineered for smooth user engagement and effective online transactions.

Dragon Game:

- Developed a 2D interactive game using HTML, CSS, and JavaScript with smooth animations, collision detection, and player controls.
- Designed an attractive UI/UX of responsive layouts, CSS animations, and cross-browser compatibility for seamless gameplay.
- It had optimized performance by using efficient game logics, event handling, and rendering techniques to improve speed and the user experience.

Theme-Clock

- Developed a real-time digital clock with dynamic dark and light mode using HTML, CSS, and JavaScript.
- Enhanced UI/UX with smooth theme transitions, responsive design, and seamless animations for better user interaction.
